VERSION 2: ECOSYSTEM

[Ciana's Notes to Self]

Include these ideas:

+ modern, unified, intelligent, adaptable
+ Engage customers; empower employees; optimize operations; transform products
+ what microsoft is doing is bringing the data & signals (D365 apps + Power platform) together to drive your business outcomes
+ "remove barriers" / "break silos"
+ data → insight → action
+ moving forward/forward motion
+ "BECAUSE YOU'RE BETTER WITHOUT BARRIERS" / "PERFORM BETTER"
+ stop being held back
+ "Dynamics 365 represents a fundamental shift in the nature of business applications"

Dynamics 365 for Sales

HEADLINE
Turn relationships into revenue
Win more deals. Dynamics 365 for Sales puts intelligent relationship selling tools at your team's fingertips so they can build personalized customer engagement.

[CTA] Watch demo >

[PANEL 2 - SALES A]

Strengthen relationships

Engage authentically. Connected data and integration with LinkedIn empower your team to form and sustain meaningful, personal relationships across the customer lifecycle.

Enhance productivity

Remove distractions. Automate workflows, work from any device, and find quality leads —without ever leaving the apps you're already using, like Word, Outlook, and LinkedIn.

Improve performance

Exceed your numbers. With built-in tools to track performance, give actionable feedback, and motivate sellers, you can meet your goals with consistency and make measurable progress.

Enable insights
Empower your team with AI-driven guidance. Use features like automation and predictive lead scoring to help your team make smarter decisions, every time.
